

# MEMORANDUM

**TO:** NMSU Faculty Senate  
**FROM:** Stuart H. Munson-McGee, FS Vice Chair  
**SUBJECT:** January Monthly Report  
**DATE:** January 9, 2014

The following are current ADAC Discussion Items:

## **System course alignment**

Started with selected courses:

PHYS 215G & Lab; CS 110; GOVT 100G, 150G; ART 101G; COMM 265G; HIST 201G; SOC 101G, 201G; SPAN 111; STAT 251G; ENGL 111G; PSY 201G; MATH 121G; CJ 101G, 205G; MATH 120, 190G; ANTH 125G; CHEM 111G

Initial meeting held in early January, I don't know what the outcomes were at this time. Other classes under "alignment" include:

ART 150; CEP 110; ECED 115; ECED 255; ECON 251G; EMD 101; EMD 250; ENG 211G; HIST 201G; HNDS 251; MATH 192G; MATH 210

## **Proposed Classroom Scheduling Procedures**

This continues as a discussion item. Issues raised include moving to M/W; T/R; and F/S classes each at 1:15 long, which rooms are being moved to "central" control. Much discussion remains.

## **Revised "Pet" Policy**

The new policy 3.06 Assistive, Service, and Companion Animals on University Premises has been approved by the Board of Regents (December 13, 2013). This policy will supersede the current policy 3.80, Pets, and assist the university with compliance with federal regulations issued under the Americans with Disabilities Act and the Fair Housing Act.
