**Proposed Committee  
Assignment**

**Assigned Committee Faculty Affairs 3/10 and 4/7**

**Title**                    **A Memorial Requesting Prioritization of Creation of Electronic  
Forms**

**WHEREAS**, efficient and secure interactions among faculty, administration and students are facilitated by the use of electronic forms, and this is of particular importance when students are at a distance and

**WHEREAS**, using paper forms for administrative purposes is cumbersome, and often impractical,

Therefore, the NMSU Faculty Senate requests that forms involving interaction between students and faculty be prioritized in NMSU's on-going effort to move toward a paperless campus, and that electronic versions of these forms be developed as quickly as practicable. Examples of the types of forms we seek to be prioritized are incomplete forms, add-drop forms, and independent study forms.
