

December 2023 Report

Faculty Success

Meeting December 11, 2023

The meeting was changed to December 11 from December 14 to accommodate academic calendar appointments. However, a quorum was not met.

There was discussion on the suggested changes to the P & T guidelines. A question was posed to clarify what the problem is and how will the problem be solved by changes.

Regarding Propositions 05-23/24 there was confusion on whether it was assigned to the committee. A suggestion was made to change the membership of the committee to include more representation from the community colleges. In particular, it is currently written for inclusion of 1 community college faculty member from the community colleges. Information was provided that NMSU Alamogordo teaches approximately 67% of all classes on the web and grants approximately 80% on-line classes. It is suggested that the membership be amended to add 1 faculty member from NMSU Alamogordo and 1 faculty member from NMSU Grants. These members would have voice of experience to add to the committee.

Respectfully submitted:
