

February 2024 report  
Faculty Success  
Meeting February 14, 2024

Agenda:

Dr. James McAteer – Update on P&T Timeline. A document was shared with the committee on timelines for various colleges. The document provided information from the colleges on when faculty submit their packets, semester start date, external leaders, department communications, Department Head communications, etc. Of note was the timeline between faculty submission to decisions at various levels.

It was also noted that there may be more of a formal process for notification of Promotion/Tenure to the candidate. Rather than an informal memo, more emphasis be placed on celebrating the accomplishments of the candidate. There was mentioned that the names are read at Convocation, however, not all faculty are available to attend. Perhaps the Provost office could reinstitute a formal celebration for faculty achieving a milestone in their career.

Respectfully submitted,

Glenn Duff  
Animal and Range Sciences  
Chair, Faculty Success
