**Proposal:** A resolution to ask for Faculty Senate support for a formal request to the NMSU Administration to allocate funds for improved facilities, office space and resources for adjunct (part-time) faculty at each NMSU campus.

**Rationale:**

Adjunct faculty are an indispensable part of the NMSU system. Across the NMSU system, adjunct faculty are widely used to teach a significant load of courses, covering a substantial amount of teaching.

Many adjunct faculty members are retired or unable to carry all their materials to every class, so fixed spaces such as lockers are needed for each adjunct professor. NMSU should seek to emulate El Paso Community College, which has large, shared rooms and personal lockers for adjunct faculty.

This resolution requests that the NMSU administration commit to providing the resources and directing the units to provide the following:

- Suitable office and computer facilities that accommodate the needs of the adjunct faculty hired by each unit
- Lockable storage facilities for each adjunct faculty that requests it
- Proper recognition of adjunct faculty by each unit, including the ability to procure business cards
- Recognition of continuing adjunct faculty on departmental web presences, if the faculty member desires

Fulfillment of this resolution will improve morale and productivity for a valued group of faculty that provide substantial contributions to accomplishing NMSU's mission.
