

Report from Curriculum and Planning Committee

Regarding changes to ARP 4.65 – General Education Coursework Required for Graduation

At the Curriculum and Instruction Committee meeting on September 10th, we discussed the changes to ARP 4.65. With the exception of 4.65, part 2, section B, all changes were found to be housekeeping updates reflecting changes within the university.

4.65, part 2, section B addresses the composition of the General Education Course Certification Committee. This expands and simplifies Community College representation on the committee to a member and alternate from each campus.

The committee recommends “Do Pass”.

Dr. John Sandstrom

Chair, Curriculum and Instruction Committee
