Proposed Committee: LRP

Assigned Committee: LRP

Prior Approvals: N/A - Bylaws changes only need Senate action

Proposal:

We propose that the NMSU Faculty Senate Bylaws be amended to add the “Chair or Designate of the Graduate Student Council” as an ex-officio member and to the list of ex-officio members in Section B, Article 9, immediately after mention of the President of ASNMSU.

Rationale:

Graduate students, especially graduate assistants, are very important members of teams of researchers at NMSU that allow NMSU to meet the various objectives outlined in the University’s strategic plan, Vision 2020, under Goal 3, Research and Creativity. All graduate students work with faculty to engage in and advance relevant research across all Colleges, and in doing so, are partners with faculty in advancing this important goal. Graduate assistants either work as teaching assistants to help advance the teaching mission of NMSU, colleges and departments; work as research assistants to aid faculty and research staff in advancing both sponsored projects and non-sponsored research; or both. Despite the value that graduate students contribute to NMSU, they currently lack specific representation in the Faculty Senate, a privilege and responsibility that undergraduate students enjoy through representation of the President of ASNMSU as an Ex-Officio member. Adding the Chair or Designate of the Graduate Student Council as an Ex-Officio member will allow graduate students to be represented in the Senate and facilitate their voice being heard in matters relevant to graduate studies, research, and work they do as teaching and research assistants.
